THE STATE CAPITAL.

Interesting Proceedings of the Legislature.

Refusal of the Senate to Hold an Executive Session.

Proposed Reduction of the Fare on the Eighth Avenue Railroad.

Probable Confirmation of the Governor's Nominations Te-Day.

ALBANY, Jan. 26, 1870. The refusal on the part of the Senate to-day to go into executive session—this being the regular day for that business—has given much strength to the reports that there is a serious hitch in the confirma-Creamer's motion to go into executive session toofficer of the Port was stubbornly opposed by Senator Hardenburg, of illster county, who refused to consent to a session for any purpose but to take action upon the whole of the appointments or none. While the opposition appears to be based upon the still unmade appointments for Harbor Masters and Port Wardens, and rumor so bath it, it may turn troller has a good deal to go with it. There are wheels within wheels in this business. The main sulity appears to be directed against Mr. Miller for the Insurance Department, and Mr. Howell for the Bank Department. Two at least of our city Senators—Genet and Norton—are resolute in opposition to these two appointments. Until some healing balm can be applied to these sores there is no certainty as to when an executive session will be held. ARRESTS BY POLICEMEN.

The bill of Mr. P. Mitchell, providing that police-men shall be compelled to take a prisoner before the police courts for examination immediately upon his the station house, was warmty debated in the House to-day. John H. White opposed the bill, apparently because he thought that Superintendent Kenneay was above the law. He thought that the Police Commissioners had full power in the matter, although Toan Fields contended that the Police in The Commissioners had full power in the matter, although Toan Fields contended that the Police in Tringed the right of the critizen under the constitution of demanding a speedy stal. Mr. White declared as fatise that any one was detained in a cell for several days together, norwithstanding that his assertion was loadly demed by Messirs. Burns and Mitchell, who cried several cases of long imprisonment without any charges being made against the prisoners. The discussion in Committee of the Whote was quite hyely while it mated. Some of the democratic members were inwising to support the bill. It was evident that tagy wished not to deal with the Alertopointan Ponce Commission by percenseal, but to leave it to without on the Legislature and the people are saxiously awaiting the inproduction of the measures which are to remode; our whole municipal system. Antichell's motion to progress his bill to a time reading was beaten by a large importly.

Mr. Irving introduced a bill to-day with a view of the beat, securing life on the North and East rivers and obtage.

Mr. Irving introduced a bill to-day with a view of the Sound shall not land as the beast river below Tenth street, after the ist of May fixt. The biller that the street, after the ist of May fixt. There appears to be find the first while going application on their trips, greatly to the danger of the snipping in the cleannel, and also passing through the harden. It is therefore, no crest, instead of locking turn up in a filthy cell in the station house, was warmly debated in the House to-day. John H. White opposed the bill, apparently

island of the law to be punished by a fine of \$500 and imprisonment for six months, or by both fine and imprisonment.

BERGH INTERVIEWS DENNY BURNS.

Bergh unsplayed his tail quixone form on the floor of the Assembly to-day. He was "interviewing" Denny Burns with reference to that gentleman's out, which was supposed to be designed to wipe out Bergh and demonsh the Society for the Frevention of Gracity to Annams. Burns explained, in the most amilable manner that he had no such destructive antentions in his mind when he drew up the bill. On the contrary, he was in favor of strengthening the hands of the great and game philanthropsis; but he objected to his arresting the employes of bloated capitalists in the persons of poor cartmen, who were only doing the oldfung of their employers, and compelling them to pay fines out of their own pockets. Hergh evidently saw the matter in this light, because after a full discussion of the question the two diplomats entered into a compact, and drew up a freaty, which was only signed, agreeing that liergh shall in future go for the owners of the cares, wagons, trucks and so forth, whenever any charges of crueity are made, except in cises where it is clearly proved that it was a case of individual and of crueity are made, except in cases where it is clearly proved that it was a case of individual and unnecessary crueity on the part of the arriver him-self. The agreement being actisfactory to be my it is probable that Bergh will not be molested this ses-sting to the Assemble.

An Informal Cancus of Seanters-Oil Upon the Troubled Waters-The Governor's Appointments to be Acted Upon To-Day-Reception

of Governor Hoffman. A friendly gathering, not exactly partaking of the complexion of a caucus of the Senators, took place this evening, at which a good many of the sharp angies of the present difficulties regarding the Governor's nominations were filed off. The trouble which retarded Senatorial action appears to have been chiefly opposition to Mr. Miller, for insurance Supermissident, and McConkie, of Troy, Capitol Police Commissioner. It is not quite certain that the objections to them are withdrawn just yet. The senate will hold an executive session to-morrow, however, and all the nominations with these two exceptions will be acted upon favorably. It may take a few days yet to harmonize opinions upon these two appointments, but there is very little doubt that the restless condition of the party thoughout the Stale will necessitate immediate and harmonious action. The leaders feet this and even the discontented are not ignorant of it. There never was any doubt as to the confirmation of Dr. Carnochan. That made no part of the besitancy.

The Governor's first reception is going on. There are large numbers present as the executive mansion, representing politicians, ludges, soldiers, orators and public officers of both parties. Governor Homman in as affaire and corona as ever in the reception of his guests, and looks in executive ineatin, despite his ardhous labors. About hop people visited him during the evening and are sail paying their respects. the objections to them are withdrawn just yet. The

Mr. Browning reported that the committee ap-

pointest to wait on the State Legislature Committee, regarding the passage of an Accident bill for the protection of the and limb, was favorable, and the Workingmen's Assembly expect to have the bill get its third reading to day. SERIOUS ACCIDENT TO A WORKMAN .- Yesterday afternoon a stone cutter named Getlinger, in the employ of Mr. Brown, of Market street, had one of his hands shockingly crushed through a block of marble failing on it. Amoutation had to be per-formed.

Monday night two youngsters, named Frederick Honeywell and Arthur Holmes, effected their escape from the State Reform School at Jamesburg, of which they had been inmates for six or eight months past. The superintendent, Mr. R. H. sneldon, at once started in parsuit and succeeded in capturing both boys late on Tuesday night. Honeywell had just got home and was having his first meal with his parsuits in this city when Mr. Sheldon put in an appearance. The other made for Jersey City, where his friends reside, and was caught there in about the same way. They had walked the cutre distance. About noon yesterday Mr. Sheldon started for Jamesburg with his "lost children."

LEGISLATIVE SOOTHING SYRUP.-The passage of the Police bill in the lower house at Trenton the day before yesterday has, as a matter of course, occasioned considerable joy in democratic circles hereabouts and a corresponding degree of despondency in republican pointical circles. This bill provides for the complete disorganization of the present force and the organization of a new department under a commission. The commissioners named in the bill are andrew A. Smalley, Herman Schalk, John Dwyer and David Angleyson, all good men and true of the democratic stipe. It is proper to say that so are as the people appear in the matter their views seem to be chilrely unnecessary so far as the politicians seem to care, indeed, no effort is made to conceal the fact that the measure is purely partisan. It is argued by the democratic shat the radicals have been showing their clows into the public bin long chough. The interence is that the semocratic want to have a little show also. The feeling here is that the further action on the off will be postponed till next week. The friends of the Fouric-Sull Ward buil are also sanguine of success. A REAVY ROBBERY-A HOUSE NEAR THE SEA COAST CLEARED OF ITS CONTENTS .- Richard Bailbridge, or far Rockaway, is the owner of some dozen cottages, climated near the shore of Rockaway beach, which he rents to families, all furnisated, for residences during the sammer season. Some time since one of these cottages was entered and completely cleaned of its contents, amounting in value to about 4500. On Sunday Mr. Bainbridge made an inspection of these premises and to his surprise discovered his loss. Among the property taken was a valuable gun, by the aid of which Mr. Bainbridge was enabled to obtain a chie to the perpetrators of the roboery. Diligent inquiry was made and had the result of implicating a man named Richard Pettit, living on the northwest point of the beach. Quietly Mr. Bainbridge proceeded to Jamaica and procured a seary warrant and ah order of arress against Pettit, which were placed in the hands of Gricer Scully for enforcement. A search of the premises brought to light a portion of the skelen property, and Pettit was forthwith conveyed to Jamaica. Mr. J. W. TAYLOR moved that the bill be indefi-

Air. J. W. TAYLOR moved that the bill be indefinitely postponed, remarking that there were many of the justices of considerable merit, but the majority in the city of Newark were not the men to trust with the liberages of the people. When the case is one that calls for the issuance of a process the papers are sent up to the Grand Jury, and the costs are paid if conviction ensues. He cited the case of a justice in Newark who had been indicted for demanding exteritions, fees, and who kept a standing advertisement in a local paper inviting people to call, and saying "that any violation of the city ordinance would be tried here." He was not opposed to the justices as a class, but did oppose the extension of tims provision to criminal cases. The law was a wise and a just one as it stood.

Mr. Little hoped that the motion to postpone would prevail. If the power to collect these fees was placed in the hands of the justices of

CREAT COCKING CONTEST.

Main of Came Cocks Between New Jersey and New York-Thirteen Battles for \$100 Each and the Odd Fight \$1,000-New Jersey a Gallant Victor.

New Jersey, all things considered, must be called the cock pit of the United States, as within its limits tween game birds have been decided. Last evening Pamrapo, between New Jersey and New York, in which there was spiendid fighting, and the Jersey boys achieved a decisive victory. Well-informed the belt to the end of the season. It could hardly accommodate anybody on fair terms. The main fought last night was made by a sagacious gentleiles in this city. The agreement was four ounces to five pounds eight ounces, to fight all that fell in for \$100 a battle and \$1,000 the has been seem this year than the birds afforded. The New Jersey towls are mostly bred by a duck wing Sefton gray, lately accidently killed, and a pony pyle, out of an Irish hen, while the New York cocks were from "up river"-Tarrytown and Albany-and from Uncle John Ludiow's, at Union Hill.

Second Fight.—The light weights, four pounds two ounces. The Yorkers had a black red, with white hackle, ored from a Derby cock and an Irish aen. New Jersey was a red pyle. The New Yorker was a rattler, and won the fight after a hard and ostinate struggle. Thrice did he take it from the loe, and only when both were blind and "cut to pieces" did the New Jersey bird succumb. Handfuls of money were lost on the fight. Time, 22:55½.

Third Fight.—New York was again the favorite, twenty to cignteen. The Jerseylies showed a spangled maft from staten Island. New York brought out another black red. The weights were four pounds filteen ounces. The spangled had the best of it the first and second backle, but filten unfortunately fell and broke a wing, which crippled him badly. But even with this he knocked the black red "stiff, dumb and blind," and won a terrible "up hill fight" galiantly. Time, 15:17½.

Fourth Fight.—The New York party sent in a black red and the Jerseylies a black red muff; weights, four pounds eleven ounces. The former was the favorite. It was a ratting, hap for flap fight, and Jersey was getting the best of it, when he got his abroat cut and received a brain blow which used him up very quickly, the muff winning in style. Time, 2:45½.

Fight Fight.—The battles were now two and two and the excitement very great. New Jersey presented a blue red and their opponents a black gray from Brocklyn; weights, four pounds four onnees. New York showed another black red and New Jersey a spanglet must. Weight, four pounds, eleven onness. Fork the favorite. New Jersey thus won the main in gallant style, and her partisans much money.
